PROFESSIONAL EXPERIENCE

.NET Developer Intern — Synavos Global Pvt Ltd *July 2026 – Present*
Lahore, Pakistan

- Design and maintain SAP web portals using C#, .NET, HTML, CSS, and JavaScript, supporting enterprise business workflows.
- Work with SAP Business One (SAP B1) integrating with SAP HANA and MS SQL databases for business-critical data operations.
- Develop and enhance front-end and back-end components to improve portal functionality, usability, and performance.
- Collaborate with cross-functional teams to troubleshoot issues, implement feature updates, and maintain code quality standards.

Software Quality Assurance (SQA) Intern — Systems Limited *Jul 2025 – Sep 2025*

- Executed manual and automated testing (functional, UI, smoke, exploratory, regression) for web and enterprise applications.
- Created and maintained test cases, test scenarios, and test plans from requirements and user stories.
- Reported and tracked software defects using issue-tracking tools; collaborated with developers, BAs, and senior QA engineers in Agile sprints.

PROJECTS

Projexa — AI-Native Project Management & Collaboration Platform *In Progress*

- Designing and building a full-stack, AI-native platform for project planning, execution, and team collaboration, covering the complete project lifecycle from idea to completion.
- Architecting a scalable backend and modern web frontend with integrated AI assistance for planning and workflow automation.

Smart Pill Detection App (PillsDetector AI) — HEC Gen-AI Hackathon *Oct – Dec 2025*

- Built a computer-vision system (YOLOv8, Mask R-CNN) to detect, count, and classify tablets/capsules, training a custom YOLOv8 model to 96% accuracy.
- Delivered real-time and batch processing with confidence scoring and structured PDF reporting for pharma production use cases.

Traino–Trainee Aide — Final Year Project *Oct 2025 – Apr 2026*

- Built a role-based web platform (Django, PostgreSQL) connecting trainers and trainees with a searchable training catalog, real-time chat, and an AI chatbot.

Online Job Portal — Mobile App Development Project *2025*

- Developed a cross-platform Flutter app for job seekers and employers with user authentication, real-time job listings, and resume uploads.
